ATHARV SRIVASTAVA

Full-Stack Intern • TypeScript • React.js • Node.js • Express.js • REST APIs

Pune, Maharashtra | +91 8112904561 | atharvsrivastava8197@gmail.com | linkedin.com/in/atharv-sriv-01rv | github.com/Atharv-srivastav

PROFESSIONAL SUMMARY

B.Tech CSE undergraduate (2029) who builds full-stack TypeScript applications: React 18 and Vite on the front end, Node.js and Express.js REST APIs on the back end, with unit and integration tests in Vitest. Built a layered, tested platform with a hybrid LLM and rule-based evaluation pipeline, plus React.js and Bootstrap front ends. Strong in Data Structures & Algorithms, OOP and DBMS; works with MongoDB, Postman and Git. Uses Claude Code and Cursor as a daily workflow. Looking to contribute to an early-stage product team.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), TypeScript, C
- **Front-End:** React.js, Vite, HTML5, CSS3, Bootstrap, Responsive and Mobile-First Design
- **Backend, Databases & APIs:** Node.js, Express.js, REST APIs, JSON, Postman (API testing), MongoDB (NoSQL)
- **Developer Tools:** Git, GitHub, VS Code, Vitest
- **Computer Science Core:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks
- **AI & Agentic Tools:** Claude Code, Cursor, Prompt Engineering, RAG (Retrieval-Augmented Generation), LLM Integration (Google Gemini API), LLM Fundamentals, Machine Learning Basics

PROJECTS

LLD Practice Platform – Object-Oriented Design Studio | *TypeScript, React 18, Vite, Node.js, Express.js, Google Gemini API, Vitest*

- Built a full-stack platform where engineers practice Low-Level Design problems and receive instant, explainable scoring on class design, SOLID principles, coupling and design patterns.
- Designed a hybrid evaluation pipeline with the Strategy pattern: deterministic rule-based checks, Gemini LLM semantic review, and an offline fallback evaluator that keeps the platform working when the LLM is unavailable.
- Architected a layered backend (domain, application, infrastructure, REST API) with an attempt lifecycle state machine, live Mermaid UML preview, and unit and integration tests in Vitest.

Personal Portfolio Website | *React.js, JavaScript, CSS*

- Built and deployed a component-based React.js portfolio presenting projects, skills and achievements with fully responsive layouts.
- Implemented interactive UI components and direct GitHub and LinkedIn links to make recruiter access fast and simple.

Zeravia Client Service Portal | *HTML5, CSS3, JavaScript, Bootstrap 5*

- Built a responsive single-page service portal with a JavaScript-rendered service catalogue, category filters, detail dialogs and an FAQ accordion.
- Implemented client-side form validation, enquiry draft recovery and a saved light/dark theme using localStorage, with accessible labels, landmarks and ARIA state updates.

Facial Expression Recognition System | *Python, Machine Learning*

- Developed an emotion detection model in Python using image preprocessing and classification techniques.
- Evaluated the model on held-out test datasets and iterated on it to improve prediction accuracy.

EDUCATION

B.Tech, Computer Science Engineering | Aug 2025 – Aug 2029
Intellipaat School of Technology, D Y Patil University, Pune, Maharashtra
Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Class XII (CBSE) | Little Flower House, Varanasi | 2024

Class X (CBSE) | St. Atulanand Residential Academy, Varanasi | 2022

CERTIFICATIONS

- Python Essentials – Cisco Networking Academy
- AWS Cloud Foundations – AWS Training & Certification
- Cyber Security Job Simulation – Deloitte
- CSS Certificate – HackerRank
- iHub Rookie Certification – Data Science and AI
